

LUXEMBOURG BY CYCLE 2019/20

NEW SET OF 2 MAPS of the cycle paths of the Grand-Duchy of Luxembourg

A new version of the map *Luxembourg by cycle* (ISBN 978-3-936990-75-1), elaborated by the Lëtzebuurger Vëlos-Initiativ (LVI) a.s.b.l. with the support of the cadastral land register, has been published.

Presenting the national and regional cycle path network at a **scale of 1:50.000**, this set of 2 maps (NORTH and SOUTH) informs the cyclist, among others, about the characteristics of the tracks, the differences in altitude and the distances of different cycling itineraries, as well as the points where you can rent a bicycle. The cycle tracks that are using former railway tracks and thus presenting a rather flat topography are specially highlighted. The indication of CFL's railway network facilitates combinations of train and bicycle. Accommodation establishments that are certified with the bed+bike label, thus welcoming cyclists and offering them a set of special services, are also marked on the map and in the legend.

All explanations on the map are in English, French and German.

The retail price is 9,00 euros. The set can be found in certain libraries or ordered directly from the LVI by transferring 11,00 euros (shipment to Luxembourg) or 12,50 euros (shipment to Europe) to the account BIC CCPLLULL - IBAN LU40 1111 0825 6417 0000 with the mention «Luxembourg by cycle 2019/20».

The map *Luxembourg by cycle 2017/18* (ISBN 978-3-936990-55-3) at a scale of 1:100.000 is still available and costs 5,00 euros (6,00 euros with shipment to Luxembourg, 7,00 euros with shipment to Europe).
